## Datasheet Bevacizumab Biosimilar - Anti-VEGF mAb - Research Grade PX-TA1006

> <u>Overview</u>	
Antibody name:	Bevacizumab Biosimilar - Anti-VEGF mAb - Research Grade
lsotype:	lgG1
Host species:	Human
Production Host:	Mammalian cells
Source:	DrugBank DB00112
Aliases/Synonyms:	Bevacizumab
> <u>Properties</u>	
Clonality:	Monoclonal Antibody
Final buffer:	PBS pH7.5
Purity:	≥90%
Molecular Weight:	149kDa

## <u>Storage advice:</u>

ProteoGenix did not perform stability or storage tests for your specific end products.

Here are some standard storage advice:

- Store at 4°C for short term; Freeze and store at -20°C or -80°C for long term

Freezing should be first tested on small aliquot(s); Glycerol up to 50% may be added for cryoprotection. Purified protein/antibodies sometimes require additives for optimal freezing and storage, and/or a specific freezing process (e.g., -20°C, -80°C, or flash freezing in liquid nitrogen).
Purified proteins/antibodies should ideally be stored as 0.5 to 2mg/ml stock solutions.

- Avoid freeze/thaw cycles: aliquot the products according to your needs.

<u>Note:</u> For research use only. Not suitable for clinical or therapeutic use.
