## Datasheet Ubamatamab Biosimilar - Anti-MUC16 & CD3e mAb - Research Grade

| PX-TA1756           |  |
|---------------------|--|
| > <u>Overview</u>   |  |
| Antibody name:      | Ubamatamab Biosimilar - Anti-MUC16 & CD3e mAb - Research Grade |
| lsotype:            | IgG4-kappa   |
| Host species:       | Humanized  |
| Production Host:    | XtenCHO  |
| Source:             | CAS: 2305629-50-7  |
| Aliases/Synonyms:   | 0  |
|                     |  |
| > <u>Properties</u> |  |
|                     |  |
| Clonality:          | Monoclonal Antibody  |
| Final buffer:       | PBS buffer PH7.5   |
| Purity:             |  |
|                     |  |
|                     |  |

## Storage advice:

ProteoGenix did not perform stability or storage tests for your specific end products.

Here are some standard storage advice:

- Store at 4°C for short term; Freeze and store at -20°C or -80°C for long term
- Freezing should be first tested on small aliquot(s); Glycerol up to 50% may be added for cryoprotection. Purified protein/antibodies sometimes require additives for optimal freezing and storage, and/or a specific freezing process (e.g., -20°C, -80°C, or flash freezing in liquid nitrogen).
  Purified proteins/antibodies should ideally be stored as 0.5 to 2mg/ml stock solutions.

- Avoid freeze/thaw cycles: aliquot the products according to your needs.

For research use only. Not suitable for clinical or therapeutic use.
