Datasheet Bifikafusp Biosimilar - Anti-FN extra domain B mAb - Research Grade

PX-TA1818

> <u>Overviev</u>	<u>v</u>	
Antibody name:	Bifikafusp Biosimilar - Anti-FN extra domain B mAb - Research Grade	
lsotype:	IgE Kappa	
Host species:	Fusion	
Production Host:	XtenCHO	
> <u>Properties</u>		
Class a litera		
Clonality:	Monoclonal Antibody	
Final buffer:	PBS buffer PH7.5	
Purity:		

Storage advice:

ProteoGenix did not perform stability or storage tests for your specific end products.

Here are some standard storage advice: Store at 4° C for short term: Erease and store at -20° C

- Store at 4°C for short term; Freeze and store at -20°C or -80°C for long term

- Freezing should be first tested on small aliquot(s); Glycerol up to 50% may be added for cryoprotection. Purified protein/antibodies sometimes require additives for optimal freezing and storage, and/or a specific freezing process (e.g., -20°C, -80°C, or flash freezing in liquid nitrogen).

Purified proteins/antibodies should ideally be stored as 0.5 to 2mg/ml stock solutions.

- Avoid freeze/thaw cycles: aliquot the products according to your needs.

Note:

For research use only. Not suitable for clinical or therapeutic use.
