Datasheet Lepunafusp Biosimilar - Anti-TfR1 mAb - Research Grade

PX-TA1857

| > <u>Overview</u> | |
|---------------------|--|
| Antibody name: | Lepunafusp Biosimilar - Anti-TfR1 mAb - Research Grade |
| lsotype: | IgG1 Kappa |
| Host species: | Homo Sapiens Fusion |
| Production Host: | XtenCHO |
| | |
| | |
| > <u>Properties</u> | |
| Clonality: | Monoclonal Antibody |
| Final buffer: | PBS buffer PH7.5 |
| Purity: | |

Storage advice:

ProteoGenix did not perform stability or storage tests for your specific end products.

Here are some **standard storage advice**: Store at 4° C for short term: Freeze and store at -20° C

- Store at 4°C for short term; Freeze and store at -20°C or -80°C for long term

- Freezing should be first tested on small aliquot(s); Glycerol up to 50% may be added for cryoprotection. Purified protein/antibodies sometimes require additives for optimal freezing and storage, and/or a specific freezing process (e.g., -20°C, -80°C, or flash freezing in liquid nitrogen).

Purified proteins/antibodies should ideally be stored as 0.5 to 2mg/ml stock solutions.

- Avoid freeze/thaw cycles: aliquot the products according to your needs.

Note:

For research use only. Not suitable for clinical or therapeutic use.
